PROJECTS

Capstone Project (Salubako)

Naga College Foundation, Inc. | 2025-2026

Conducted a study titled “Salubako: A Gamified Application for Cultural Preservation and Local Tourism in Tinambac,” which resulted in a software application with game elements on top of showcasing information about the locale.

DAR Procurement System (DAR-PMAS)

Naga College Foundation, Inc. | 2026

Developed a web-based system for the Department of Agrarian Reform–Camarines Sur 1 during practicum as a front-end and database admin of a team consisting of Computer Science and Information Systems students. The system featured role-based access, real-time monitoring of processes, and file generation, as well as the automation of the procurement process of the department.
